

MATERIAL SAFETY DATA SHEET

Supersedes: N/A

Issue Date: 9/00, Reviewed 4/09
 Issue Date: N/A

SECTION I - CHEMICAL PRODUCT		
Identity: Food contact surface sanitizer & cleaner		
Brands: CLEAN QUICK Chlorinated Sanitizer and Cleaner (Professional Line)		
Hazard Rating: 3	Health: 3	4=EXTREME
	Flammability: 0	3=HIGH
	Reactivity: 0	2= MODERATE
		1=SLIGHT
Emergency Telephone Number: 1-800-332-7787 or call Local Poison Control Center		

SECTION II - COMPOSITION AND INGREDIENTS					
Ingredients/Chemical Name: Sodium dichloroisocyanurate dihydrate, sodium sulfate sodium tripolyphosphate					
Hazardous Ingredients as defined by OSHA, 29 CFR 1910.1200.					
<u>Chemical Name</u>	<u>Common Name</u>	<u>CAS No.</u>	<u>Recommended Limits</u>	<u>Composition Range</u>	<u>LD50/LC50</u>
Sodium dichloro-isocyanurate dihydrate	Sodium DCC	2893-78-9	ACGIH TLV: 10mg/m ³ OSHA PEL: 15 mg/m ³	6.25% (label)	LD50 = 735 mg/kg (rat)

SECTION III - HAZARDS IDENTIFICATION	
Health Hazards (Acute and Chronic):	
Ingestion:	Harmful if swallowed. May be emetic at use dilution and may cause nausea, vomiting and diarrhea.
Eye Contact:	Can burn the eye and causes possible permanent corneal damage. Mild eye irritant at use dilution.
Inhalation:	Mild respiratory irritant.
Skin:	Harmful if absorbed through skin. Can cause skin burns. Mild skin irritant at use dilution

SECTION IV - FIRST AID INFORMATION

Emergency and First Aid Procedures:

When talking with physician or Poison Control Center, have container or label present.

- Ingestion:** Call a physician or Poison Control Center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by physician or Poison Control Center. Do not give anything by mouth to an unconscious person.
- Eye Contact:** Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call Poison Control Center or physician for treatment advice. Flush thoroughly with water for 15 minutes. Seek medical attention immediately.
- Skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call Poison Control Center or physician for advice.
- Inhalation:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Other: Product package has a caution statement: DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage. Causes skin irritation. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. .

SECTION V - FIRE FIGHTING INFORMATION

Flash Point (Method Used): N/A

Explosive Limits: LEL: N/A UEL: N/A

Extinguishing Media: Water spray, alcohol foam, CO₂. Large amounts of water can extinguish thermally decomposing material or the decomposing material can be isolated and allowed to be consumed.

Special Fire Fighting Procedures: Firefighters and others subjected to products of decomposition should wear full protective clothing and self-contained breathing apparatus. Use NIOSH/MSHA approved self-contained breathing apparatus in areas where this material is involved in a fire. Chlorine-containing gases with traces of phosgene can be liberated at temperatures in excess of 400°F.

Unusual Fire Hazards: Nitrogen trichloride can be generated by reaction of water on this product under certain conditions.

Incompatibility (Materials to Avoid): Do not mix with acidic products. Also avoid contact with easily oxidizable organic material: ammonia, urea or similar nitrogen-containing compounds, inorganic reducing compounds, calcium hypochlorite and alkalis.

Hazardous Decomposition/By Products: Chlorine containing gases can be produced. Traces of phosgene can be liberated at high temperatures (above 400°F)

SECTION VI - ACCIDENTAL RELEASE MEASURES

Personal Precautions: Use appropriate protection (impervious gloves, coveralls, boots, goggles, etc.) when handling large quantities of powder.

Environmental Precautions: DISPOSAL IS TO BE PERFORMED IN COMPLIANCE WITH ALL FEDERAL, STATE AND LOCAL REGULATIONS. Product contains biodegradable surfactant. If permitted, flush down sewer drain with large excess of water or dispose of at landfill.

Steps To Be Taken in Case Material is Released or Spilled: Contain spill. Remove as much as possible and reuse if possible. Keep spilled material dry. Do not allow water or other non-compatible substances to come in contact with spilled material. Sweep or vacuum all spilled material, contaminated soil and other contaminated material and place in a clean dry container for disposal. Complete cleanup on a dry basis. Vacuum to remove spill and place in trash container for disposal or flush with water. Do not dry sweep. Flood area with large quantities of water.

SECTION VII - HANDLING AND STORAGE

Precautions To Be Taken in Handling and Storing (of undiluted product): Avoid moisture when storing to prevent loss of bleaching action and to prevent caking. Mix only with water. Contamination with moisture, organic matter or other chemicals may cause a chemical reaction with generation of heat and liberation of hazardous gases. In case of contamination or decomposition do not reseal container. Store in original container. Store in a cool, dry area away from direct sunlight and heat.

Other Precautions: Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

SECTION VIII - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection (Specify Type): None required with normal use. For bulk handling or other dusty conditions, use respiratory protection approved by NIOSH/MSHA for dust.

Ventilation *Local Exhaust:* None required with normal consumer use. *Special:* None

Mechanical (General): Acceptable. *Other:* None

Eye Protection: Wear goggles or face shield when handling concentrate. Consider use of eye protection when splash potential is likely using diluted product.

Protective Gloves: Wear gloves (rubber, synthetic elastomers, PVC or other impervious material) when handling concentrate. Wearing of gloves is recommended for prolonged or repeated contact with diluted product.

Other Protective Equipment: None required with normal use.

SECTION IX - PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point °F: N/A

Specific Gravity (H₂O=1): 1.44

Vapor Pressure (mm Hg): N/A

Percent Volatile by Volume (%): N/A

Vapor Density (Air=1): N/A

Evaporation Rate (nBuOAc=1): N/A

Odor Threshold: N/A

Freezing Point: N/A

Coefficient of Water/Oil Distribution: N/A

pH (use dilution): <7.6

Scooped Density: N/A

Solubility in Water: 26g/100 ml

Appearance and Odor: White granules, slight chlorine scent

Reserve Alkalinity: N/A

SECTION X - STABILITY AND REACTIVITY

Possible Hazardous Reactions/Conditions: None known

Conditions to Avoid: None

Materials to Avoid: Acids. Also avoid contact with easily oxidizable organic material: ammonia, urea or similar nitrogen-containing compounds, inorganic reducing compounds, calcium hypochlorite and alkalis.

Hazardous Decomposition Products: Chlorine-containing gases can be produced. Traces of phosgene can be liberated at high temperatures (above 400°F)

Other Recommendations: None

Stability: Stable

Hazardous Polymerization: Will not occur

SECTION XI - TOXICOLOGICAL INFORMATION

N/A

SECTION XII - ECOLOGICAL INFORMATION

None

SECTION XIII - DISPOSAL CONSIDERATIONS

Waste Disposal Method: If permitted, flush down sewer drain with large excess of water or dispose at landfill. Rinse empty container thoroughly with water and discard by placing in trash collection. **DISPOSAL IS TO BE PERFORMED IN COMPLIANCE WITH FEDERAL, STATE AND LOCAL REGULATIONS.**

Rinse empty container thoroughly with water and discard by placing in trash collection. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

SECTION XIV - TRANSPORT INFORMATION

DOT Classification: Not regulated. Not DOT hazardous.

SECTION XV - ADDITIONAL REGULATORY INFORMATION

All components are listed on the US TSCA Inventory. No components are affected by Significant New Use Rules (SNURs) under TSCA §5.

EPA Reg. No.# 1275-27-3573

No components of Clean Quick Chlorinated Sanitizer & Cleaner are subject to California Proposition 65.

All ingredients are CEPA approved for import to Canada by Procter & Gamble. This product has been classified with Hazard Criteria of the Canadian Control Products Regulation (CPR) and this MSDS contains all information required by the Canadian Products Regulation.

SECTION XVI - OTHER INFORMATION

*N/A. - Not Applicable

*N/K. - Not Known

The submission of this MSDS may be required by law, but this is not an assertion that the substance is hazardous when used in accordance with proper safety practices and normal handling procedures. Data supplied is for use only in connection with occupational safety and health.

The information contained herein has been compiled from sources considered by Procter & Gamble to be dependable and is accurate to the best of the Company's knowledge. The information relates to the specific material designated herein, and does not relate to the use in combination with any other material or any other process. Procter & Gamble assumed no responsibility for injury to the recipient or third persons, for any damage to any property resulting from misuse of the controlled product.
